I am honoured to be the prospective Candidate for Havant representing Reform UK in the upcoming General Election.

We have been let down by successive Labour and Conservative Governments for far too long. This stops at the next General Election.

We voted for Brexit, but got more of the same rampant immigration undercutting British Workers, and burdening Housing and Public Services.

We have raging inflation from energy costs and Net Zero as the Government puts ideology ahead of energy security and the cost of living.

We have throttling regulations and record taxes on employees, traders, and businesses because of a half-hearted Brexit and Government waste.

As your MP, I'd stand for the common sense required to deliver prosperity, slash immigration, exploit our resources in the North Sea, ditch Net Zero and slash taxes for all.

Our Country must be run in the interests of the British People.

You don't have to endure any more broken promises and failure.

The Country, Havant and You deserve so much better.
