

First, may I thank HIRA for organising these hustings and the URC for allowing them to go ahead.

This speech will be on-line at [ukiphavant.org.uk](http://ukiphavant.org.uk) and [johnperry.org.uk](http://johnperry.org.uk) tonight.

When I stood in the 2015/17 parliamentary elections, I stood on the principles of honesty and integrity.

It is vital that a party and their representatives **keep** their promises, **tell** the truth and **behave** honourably.

Both Labour and the Conservatives made 2017 General Election manifesto promises to **honour** the 2016 EU Referendum result, but neither have.

May stated 109 times at the despatch box that the UK would leave the EU on 29 March, but she and the Tories **lied** to us.

We now have Mak and the Tories attempting to keep the UK under perpetual EU control with their Deal to Remain while wasting £109 million on the EU Elections.

Meanwhile, the LibDems do **not** accept the democratic EU Referendum result.

The Conservative councillors, under their leader Cllr Wilson are **desperate** to meet their own housing targets and Hayling Island has been betrayed.

Despite commitments to the Hayling Island Infrastructure Advisory Committee on the Traffic Assessment, Cllr Wilson **failed** to make good on numerous promises of information and education to committee members.

Then on 16 January, he presented his fait-accompli plan having **failed** to involve the Committee as promised.

Meanwhile, Cllr Satchwell claims to have run a business on Hayling and due to mismanagement, she ran a loss of £267,000 and **not** a business.

She also accrued a full year of Council Tax arrears and only paid up after being summoned to Court ([link here](#)) and has failed to pay back a further £10,000 debt ([link here, page 6](#)).

YOU CANNOT TRUST THE TORIES.

UKIP's policies for Hayling are clear:

- We **refute** the requirement for the housing targets set by the Conservatives.
- I have evidence of the A3023 capacity limit from traffic consultants, so if elected, Chris and I **will** oppose the Tory 2036 Plan.
- Raw sewage discharges from Southern Water have been going on for years with no Tory action. If elected, I will ask to meet the CEO and **demand** proper remedial action.
- We will attempt to **reverse** the Tory imposed 30mph limit on the A3023.
- We will pursue better value for money, an 18% hike in Council Tax over 4 years while the Tories cut services is **unacceptable**.

Hayling Deserves Better.

**Thank you** for listening to me.
